

Criminology

Overview

How do we decide what behaviour is criminal? How do we explain why people commit crime? What is the impact and consequence of unreported crime? These are all questions you will explore on the WJEC Level 3 Diploma in Criminology. With a focus on applied learning, you will gain the skills to evaluate the impact of criminological theories on policy making. This qualification combines controlled assessments and external exams, allowing you to develop a range of valuable skills while exploring intriguing topics.

This qualification combines 50% controlled assessments and 50% external exams.

Students will follow the WJEC Level 3 Applied Certificate in Criminology (code 4543QC) in Y12 and the WJEC Level 3 Applied Diploma in Criminology (code 4543QD) in Y13.

Year 1 (Certificate) You will explore how criminality is defined over time and between cultures. You will study biological, sociological, and individualistic theories of why crime happens and apply them to real life scenarios. Media representations of criminals and campaigns to elicit change are having increasing impact on public perceptions of crime. You will also have to plan, design and justify a campaign for change.

Year 2 (Diploma) You will track criminal processes from crime scene to courtroom, examining the factors which influence the fate of suspects. You will look at the personnel involved in criminal investigations and the techniques that are used, including forensics, offender profiling and surveillance. You will study the criminal justice system and evaluate the aims of using different forms of punishment to tackle crime.
