How can I make revision meaningful?

Most students waste revision time by doing this:

- Reading notes again and again
- Highlighting everything
- Watching videos without practising
- Saying “I know this” without testing themselves

The problem?

- Your brain recognises the information... but **cannot RECALL** it in the exam.

What should I do instead?

- **Test yourself** instead of rereading notes
- **Practice exam questions** under timed conditions
- **Find mistakes** and improve weak areas
- **Revisit topics regularly** over time

Respect

Resilience

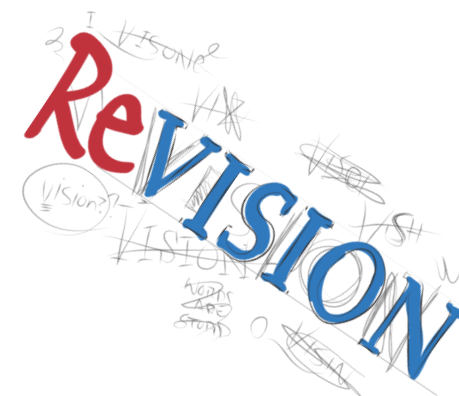

Ambition

Where do I start?

Before revising, figure out:

- What subjects do you have exams for?
- When are the exams?
- Which subjects/topics are strongest?
- Which subjects/topics need the MOST work?

Pick ONE small topic to ensure that you don't overwhelm yourself!

Step 1: Write your subjects that you feel you need to focus on, not what you enjoy!

Step 2: Add a topic to each subject

You must add what you are actually revising from each topic.

Step 3: Pick 2 topics to study each day.

Step 4: Pick days to focus on revision for. Make sure that you have a break!

Step 5: Match them together

Write one topic on each day:

- Monday: *Maths – algebra*
