Dear Parents and Guardians,

I hope this message finds you well.

As we approach the GCSE examination period, I would like to offer additional support to our Year 11 students in preparation for **GCSE Computer Science Paper 02: Computational Thinking, Algorithms and Programming**.

Beginning **next Monday**, I will be running a **weekly revision session every Monday of each school week until the end of the Easter term**.

These sessions will take place from **15:20 to 16:20** in my classroom.

The purpose of these sessions is to reinforce key concepts, practise exam-style questions, and help students strengthen areas where they may feel less confident. Attendance is strongly encouraged for all students, particularly those seeking extra support or wishing to improve their exam performance.

Please encourage your child to take advantage of these sessions as we work together to ensure they are well-prepared and confident going into their GCSE examinations.

If you have any questions, please feel free to contact me.

Kind regards,

Orane Wellington

Teacher of Computer Science
