ATTENDANCE

- Achievement is directly linked to attendance
- An attendance figure of 90% may not sound very low, but it reduces a child's chance of achieving 5 or more 5–9 grades at GCSE from 81% to around 57%.
- A child who averages 80% attendance during their secondary school career effectively misses one whole year of education and significantly reduces their chances of securing good outcomes at the end of Year 11.
