Dear Student and Parents/Guardians,

If you are currently in Year 9 and have a passion for Science, Technology, Engineering, or Mathematics (STEM), we invite you to apply for an exciting, multi-year opportunity: the **Oundle STEM Potential Programme**.

Delivered by Oundle School in collaboration with **Imperial College London**, this programme is designed to help you discover a wide range of STEM subjects and support your future progression to university.

What does the programme involve? The course is completely non-residential and takes place on **five Saturdays** spread across the academic year at Oundle School, starting in late September 2026. Sessions run from the morning into the early afternoon and include:

- Subject-focused masterclasses and taster events
- Inspiring STEM lectures
- Workshops designed to build your confidence and prepare you for your future studies

How to Apply:

- **Deadline:** Applications close on **Monday, 22 June 2026 at 23:59**.
- **Where:** You must apply through Aspire, Imperial College London's application system.
- **Important:** Please use a *personal* email address to create your account, as school email security settings often block their messages.
- As part of the application, you will need to provide contact details for a parent/guardian and a teacher so they can submit a supporting reference for you (references are due by 29 June). If you do not have predicted grades yet, simply enter "N/A" on the form.

This is a fantastic opportunity to be inspired, challenge yourself, and get a head start on your future.

Kind regards

A handwritten signature in black ink, appearing to read 'Joshua Furbank'.
